

NEW COMPANY IN TURQUOISE FIELD IN NEW MEXICO

May Prove Strong Competitor of Tiffanys.

TO DEVELOP MINES BETWEEN
SANTA FE AND CERRILLOS

According to J. H. Brittain, of Los Angeles, the American Turquoise company, which has been mining the turquoise stone near Cerrillos for many years, now has a formidable competitor in the same field.

Mr. Brittain, a prominent mining man of Los Angeles, who has been in the city for the past few days, left last night for his home in the Golden State. Mr. Brittain represents a party of New York capitalists, who are seeking mining investment in New Mexico.

"I have closed a deal for a group of turquoise claims located between Santa Fe and Cerrillos and my company will start development in a few weeks," said Mr. Brittain. "The mines are on the same dyke that the famous Tiffany turquoise is taken from and I am anything I believe we are in a more favored locality, judging from the specimens we have taken out. We have a market for all our product and plenty of capital back of the enterprise. The mining of turquoise in New Mexico has been practically controlled by the Tiffanys and we are opening a new field and a competitive one."

"I have been looking for a good gold property, but it must be a producer and have a good showing, and of course, properties of this class are not easily found, but I am in correspondence with several mining men in New Mexico and will put in a few weeks looking around when I return. My company owns several properties down in Arizona and is working them and they are all producing. I like New Mexico and believe that it has a great future as a mining country."

Bad Food Condemned.
Chicago, Dec. 2.—In one year people of Chicago would have served on their tables 1,000,000 pounds of diseased meats, fish, poultry and vegetables if it were not for the activity of the city health inspectors. Dr. Whalen sums up the results achieved by his department from the time city inspection was resumed as follows:

Since August 7th weekly condemnations of unfit food have averaged 137,500 pounds of meats, fish, poultry, fruits and vegetables condemned and 73,100 pounds of meat and vegetables, which, if maintained for a year, would make an aggregate of 11,000,000 pounds of meats, fish, poultry, fruits and vegetables condemned and destroyed as unfit for human food.

The principal causes of condemnation were: Of meat, tuberculosis, "lumpy jaw," hog cholera, immaturity and emaciation; of fish, "taint" and staleness, and of fruit and vegetables, rotteness.

Grip Quickly Knocked Out.
"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Eggleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, adding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

It is a good plan to take a dose of the Tablets when you have a cold. They promote a healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.
